

# STOP THE BORDER ADJUSTMENT TAX

The Border Adjustment Tax will be slapped on any item or input to production grown or manufactured outside the United States.

American families will pay at least \$1,700 more on essential products per year upon passage of this legislation.

## HIGHER PRICES AT THE STORE AND AT THE PUMP

**TRUTH:** Many necessities, including food, clothing, prescription drugs and gasoline, would cost consumers \$1 trillion more over 10 years.

Many of these products, which families rely on daily, would increase in cost or be unavailable or in short supply.

## 42 MILLION AMERICAN JOBS WOULD BE AT RISK

**TRUTH:** The tax would have a disproportionately negative impact on U.S. retailers, who employ 1 in 4 Americans.

Many businesses would be forced to close since their tax bill would far exceed the cost American consumers can pay.

## CONSUMERS PAY MORE SO BIG CORPORATIONS CAN PAY NOTHING

**TRUTH:** The new tax on consumers will pay for corporate tax cuts so huge that some profitable companies pay nothing at all.

The tax makes basic necessities more expensive for Americans while the largest companies receive big tax cuts.
